POPULATION SCHEDULES

#### INTRODUCTORY NOTE

In this microcopy are reproduced the population schedules of the Fifth Census (1830) of the United States. The schedules for each State or Territory comprise one or more volumes, and the volumes are arranged alphabetically by name of State or Territory, and thereunder by volume number. Each volume has been photographed on a separate roll; Volume 1 of the Alabama schedules appears on Roll 1, and Volume 13 of the Virginia schedules appears on Roll 201, which closes the microcopy.

The 17 volumes of schedules for the 73 counties of the State of Ohio are reproduced on Rolls 126-142 of the microcopy. The schedules for the several counties are distributed among the rolls as follows:

These volumes are in the National Archives, where they constitute part of Record Group 29, Records of the Bureau of the Census.

The information in the schedules is presented under the names of heads of families and comprises, for each family, statistics of the age-group distribution of its members (male and female), of race (including a distinction between free colored persons and slaves), of physical disabilities, and of foreigners not naturalized. The only names that appear in the schedules, therefore, are the names of heads of families or of individuals who were not enumerated within a family or household unit.

Occasionally affidavits attesting to the posting of the returns have been inscribed on or attached to the schedules, and these affidavits have been photographed as they occur in the volume. Blank sheets have not been photographed.

Although several sets of page numbers appear on the schedules, the pagination followed in the succeeding table of contents is by sheet number. A number appears in pencil on a left-hand page and the same number is stamped in ink on the right-hand page. These are the sheet numbers; and two such facing pages must be read together in order to obtain all information respecting a particular family. Consequently, since the page size permits the photographing of only one page to each frame, it will be necessary to examine two consecutive frames of the microcopy with reference to each other; and on these two related frames the same sheet number will appear.

The backstrip of the first Ohio volume, microcopied on this roll, is labeled "Fifth / Census / 1830 / Population / Ohio / 1 / Adams / Ashtabula / Athens / Mercer / Van Wert / Allen." The volume contains schedules for the counties named.

The following table of contents shows the location within the volume at which the schedules for each county, township, and town begin. Recapitulations of totals appear at irregular intervals, in some cases after the schedules for an individual town while in others preceding or following the schedules for a series of towns. References are to sheet numbers.
